

STATEMENT OF PURPOSE

RS28335 / S1052

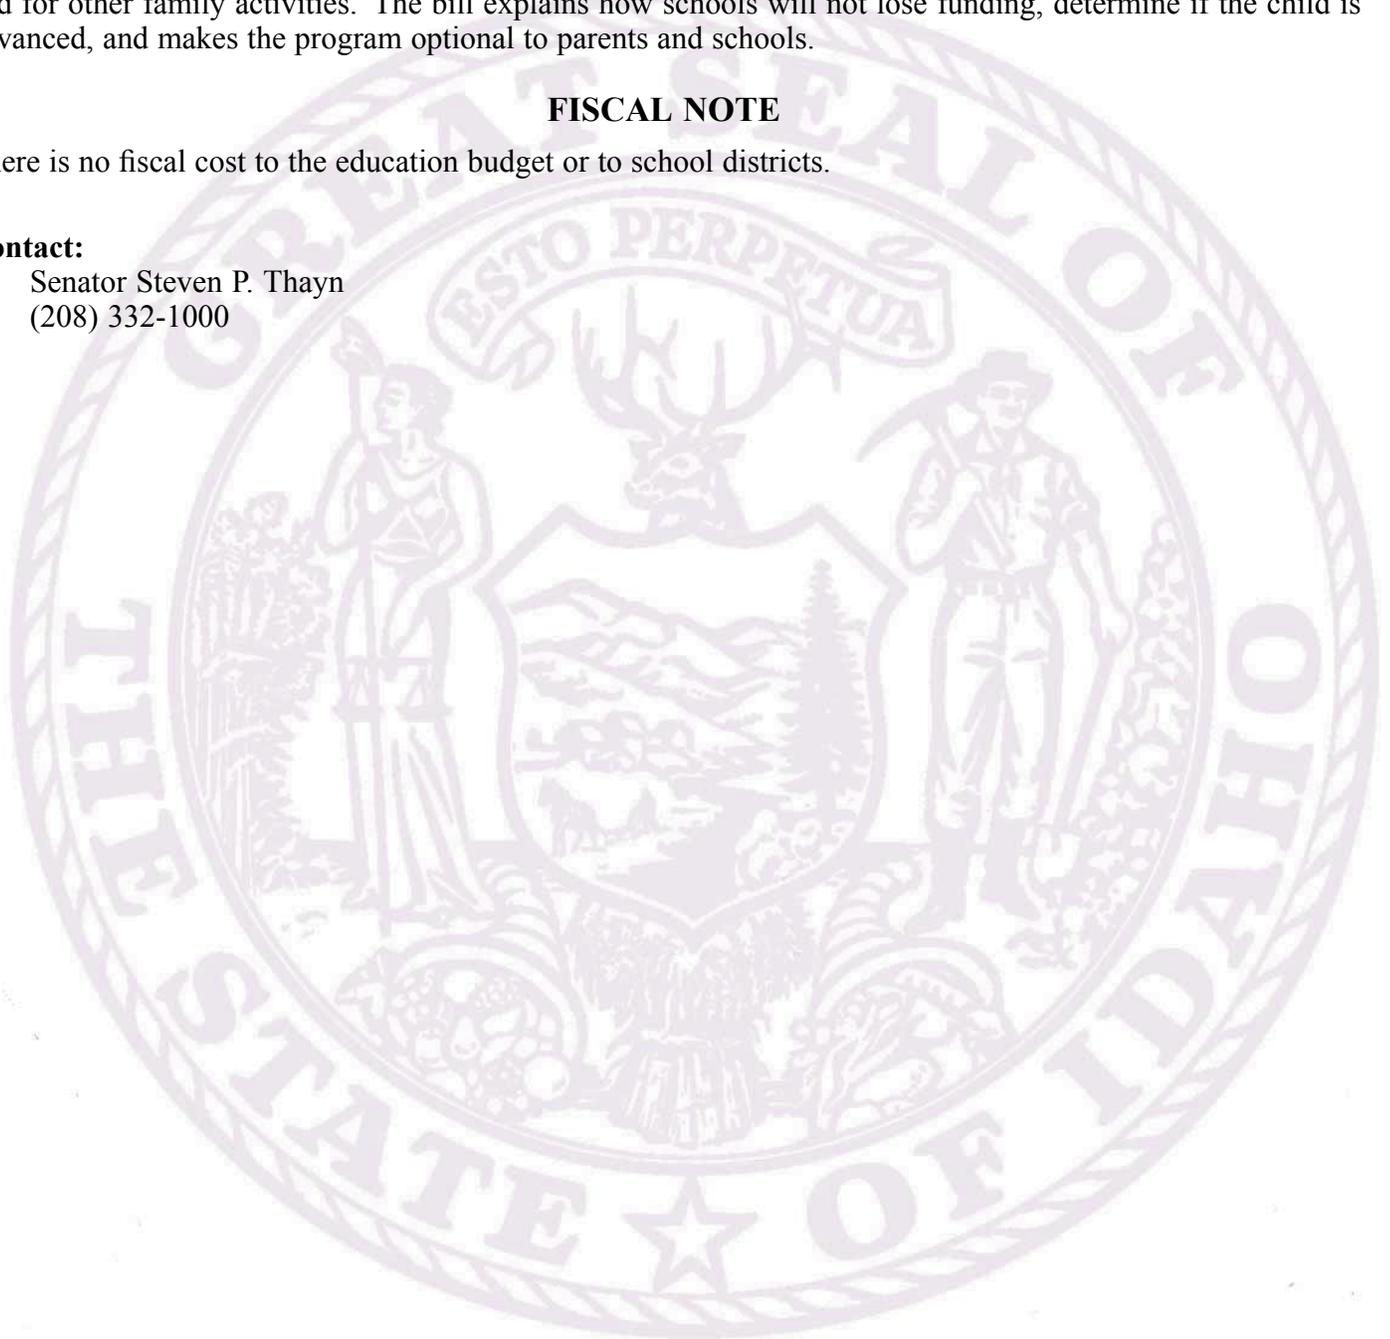

This bill creates an optional program that encourages parents to be involved in their elementary child's education and partner with public school teachers. If an elementary school student can get advanced in their academic studies, the parents can negotiate a flexible attendance schedule to supplement the public school curriculum and for other family activities. The bill explains how schools will not lose funding, determine if the child is advanced, and makes the program optional to parents and schools.

FISCAL NOTE

There is no fiscal cost to the education budget or to school districts.
